

Moving home doing your head in?

Relax. Our FREE service helps transfer and connect all your utilities at your new property with just one easy phone call.

Take a load off.

Moving home can be a nightmare. Which is why we offer a fast, free and convenient service to arrange the connection of your electricity, gas, phone, broadband and Sky TV on your behalf. And if you want, we can take even more stress off your back by organising quotes for any additional services you may need such as removalists, cleaners, insurance and more. If you like, we can even help you update your address with various organisations.

Works like clockwork.

Movinghub's free service couldn't be easier.

1. Call us on 0800 MOVENZ
(0800 6683 69).

2. Tell us a few details.

Let us know the new address you're moving to as well as the Property Manager or Company who referred you.

3. Relax. We've got this.

You can transfer your existing accounts or join new providers. Either way, we'll review the plans and services available at your new property then once you've chosen the services and service providers you wish to have connected, we'll get everything underway.

We'll get you the deals.

We work with New Zealand's leading service providers to get you some of the best deals on everything you need to move home. You can choose the service providers and plans you wish to use, or simply transfer your existing accounts to the new address.

And how do we do all this for free? We're paid by the service provider for helping you move. While standard service provider fees may apply, you pay NO extra for using Movinghub.

There are many things to stress about in life, but now moving doesn't have to be one of them.
